

Make JavaScript Look Pretty

By Meggin Kearney

Meggin is a Tech Writer

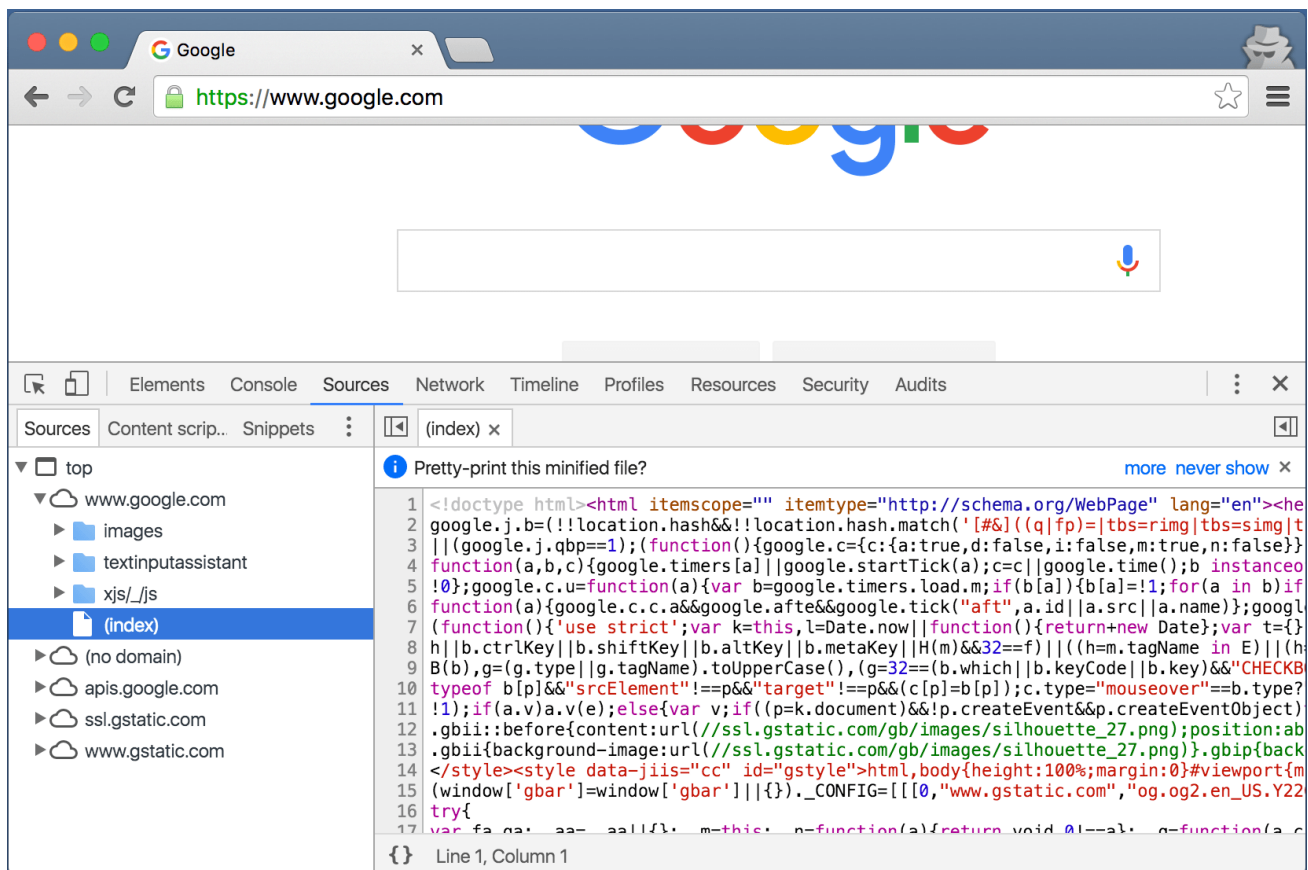

By Kayce Basques

Technical Writer for Chrome DevTools

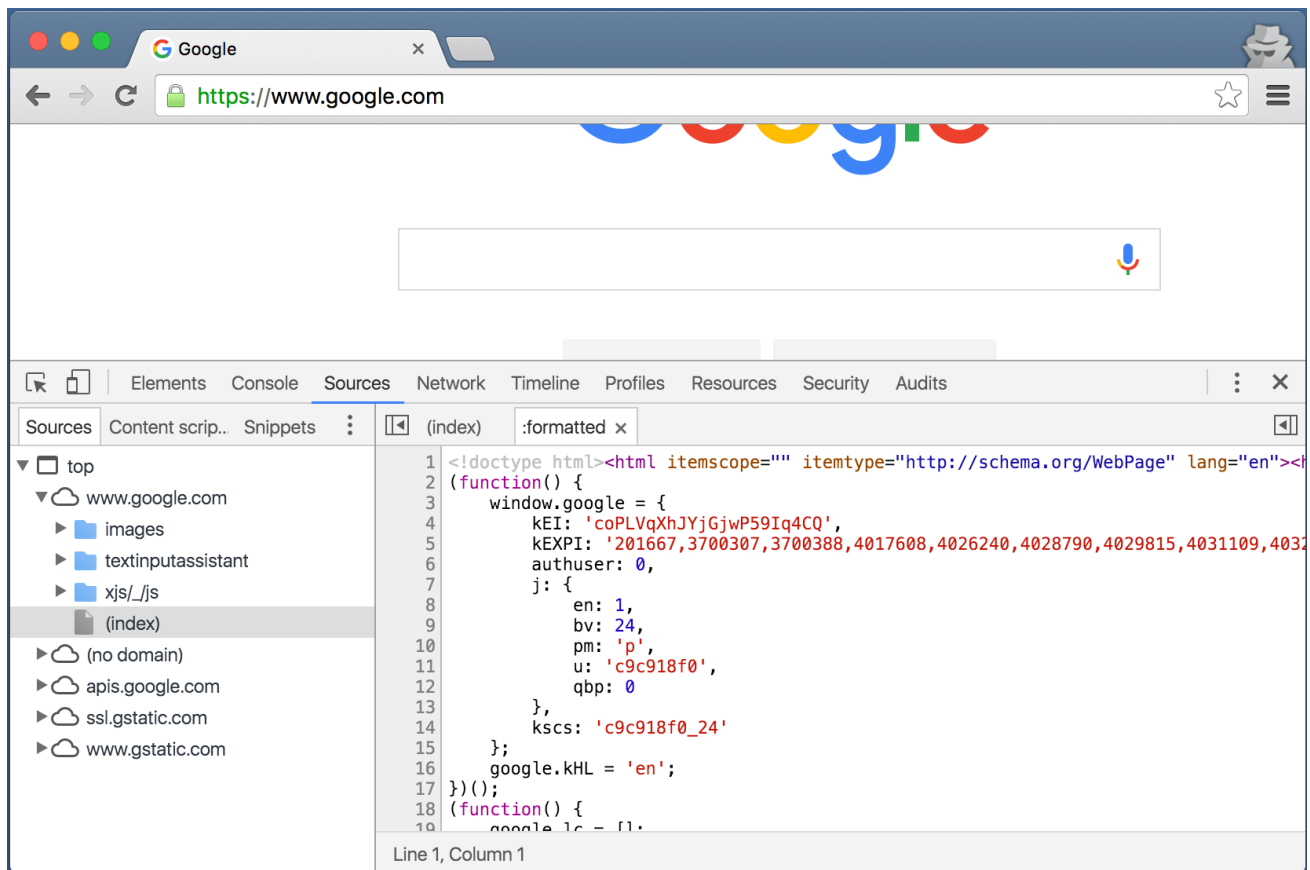

Warning: This page is deprecated. See [Make a minified file readable](#) for up-to-date information.

When viewing a script in the **Sources** panel, click the **Pretty-Print**  icon to transform a minified script into a more human-readable form.

Here is how a minified script might look in the **Sources** panel:

Here is how the same script looks after clicking the **Pretty-Print** icon:
