

Perform a column selection by by dragging

By Umar Hansa

Umar is a front-end web developer

```
classList.js* x
27     };
28
29     country[110] = "Luxembourg";
30     country[111] = "Macau";
31     country[112] = "Macedonia";
32     country[113] = "Madagascar";
33     country[114] = "Malawi";
34     country[115] = "Malaysia";
35     country[116] = "Maldives";
36
37     board = [
38         [ 0, 1, 2, 3],
39         [ 5, 6, 7, 8],
40         [ 9,10,11,12],
41         [13,14,15,16]
42     ];
43
44     return function(node) {
45         return node.classList || {
46             add: update(node, function(classy, index,
47                 ~index || classy.push(value);
48             }),
```

You can make a column selection in the Sources Panel editor by holding Alt while dragging the mouse.
