Use the `inspect()` command to jump straight to a passed-in DOM node

```
inspect($('p'))
```

Use the `copy()` command to copy text to your clipboard

```
copy(Object.keys(window))  
// stores ["top", "window", "location", "external"... and so on
```

Style your console output

```
console.log('%cHello world', 'font-size:40px;color:#fff;text-shadow:0 1px 0
```

Get the values of an object

```
values({  
  one: 1,  
  two: 2,  
  three: 3  
})
```

```
// logs [1, 2, 3]
```

Clear the console

Cmd + K (Ctrl + L on Windows)
