

Trigger a pseudo class on an element

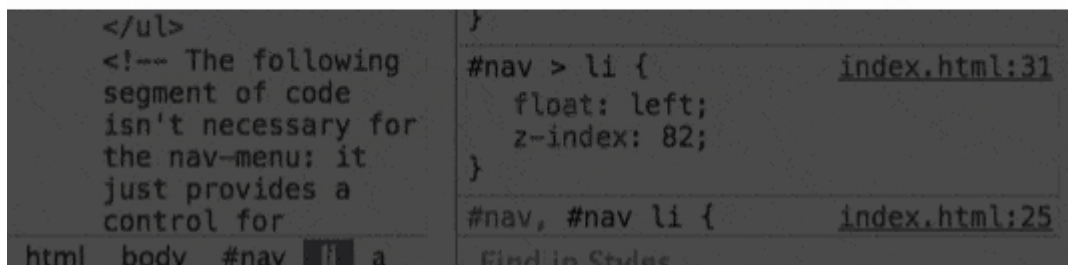

By Umar Hansa

Umar is a front-end web developer

DevTools:
Trigger Pseudo Class
Dev Tips Daily
umaar.com/dev-tips [@umaar](https://twitter.com/umaar)

You can trigger pseudo classes through DevTools, for example:

- Hover
- Active
- Focus
- Visited

Also note, when you do this, a small orange indicator appears to the left of the node in the DOM tree so you know that its state has changed.
